1. Product Overview

1.1 What Is FitManager?

FitManager (also known as GymForce) is a complete gym management software designed to run on your Windows PC. It is built specifically for gym owners, fitness center managers, and personal training studio operators who need a simple, fast, and reliable way to manage their business — without depending on the internet.

Everything you need to run your gym is in one place: member records, payment tracking, billing, reminders, staff accounts, and performance reports. FitManager works completely offline, which means your data is always private, always available, and always fast — even if your internet connection is slow or unavailable.

1.2 Who Is This Software For?

- Gym owners who want to replace paper registers and spreadsheets
- Fitness center managers overseeing daily operations
- Personal training studio owners who track client memberships
- Front desk staff who record payments and manage members daily

1.3 Main Benefits

Benefit	What It Means for You
Works 100% offline	No internet required. Your gym never stops operating because of a bad connection.
Your data stays on your PC	Member details and payments are never uploaded to any server. Total privacy.
No monthly subscription fees	Pay once, use forever on that computer.
Automatic billing calculation	The system figures out who owes money and how much — without manual work.
Easy to learn	Designed for non-technical users. Most tasks take just a few clicks.
Staff access control	Give staff only the permissions they need. Protect sensitive data.

1.4 Problems FitManager Solves

- No more paper registers that get lost, torn, or messy
- No more manually calculating who owes how much each month
- No more forgetting to remind members about overdue payments
- No more struggling to see how much revenue your gym collected this month
- No more worrying about staff accessing sensitive gym data they should not see

© 2024 FitManager by Shouvik Deb | All Rights Reserved

- No more losing member records if a staff member leaves

© 2024 FitManager by Shouvik Deb | All Rights Reserved

2. System Requirements

2.1 Minimum System Requirements

Component	Requirement
Operating System	Windows 10 or later (64-bit recommended)
Processor	Any modern Intel or AMD processor (2010 or newer)
RAM (Memory)	2 GB minimum; 4 GB or more recommended
Storage Space	200 MB free disk space for installation
Screen Resolution	1024 x 768 or higher
Internet	Not required after installation

2.2 Offline Usage

FitManager is designed to run completely offline. Once the software is installed on your computer, you do not need an internet connection for any daily operation.

Internet is only needed for the initial download of the setup file. After installation, all features — adding members, recording payments, sending reminders, generating reports, and taking backups — work without any network connection.

💡 **TIP:** Your data is stored locally at: C:\Users\[YourName]\AppData\Roaming\GymForce\data\. It never leaves your computer automatically.

2.3 Data Storage Locations

Type	Location on Your Computer
Main database	C:\Users\[YourName]\AppData\Roaming\GymForce\data\database.json
Manual backups	Documents\GymForce\Backups\
Activity logs	Documents\FitManager\Logs\app.log

⚠️ **IMPORTANT:** Do not manually edit the database.json file in Notepad or any text editor. Editing it incorrectly will corrupt your data. Always use the built-in backup and import tools instead.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

3. Installation Guide

3.1 Running the Setup File

Follow these steps to install FitManager on your Windows PC:

1. Locate the Setup.exe file you received or downloaded.
2. Double-click Setup.exe to begin the installation.
3. If Windows shows a security warning, click 'More info' then 'Run anyway'. This is a normal Windows security prompt for new software.
4. On the installation screen, click 'Next' to continue.
5. Accept the default installation options and click 'Install'.
6. Wait 1 to 2 minutes for the installation to complete.
7. When you see 'Installation Complete', click 'Finish'.
8. A FitManager icon will appear on your desktop. You are ready to launch the software.

3.2 First Launch: Step-by-Step Setup

The first time you open FitManager, the software will guide you through four quick setup steps. This takes about 5 minutes.

Step 1 — Activation Screen

You will see a screen titled 'Activate FitManager'. This is the initial software unlock step.

- Type the master activation key provided with your software package.
- Click 'Activate'.
- The software will proceed to the next step automatically.

💡 **TIP:** This master key is for initial setup only. It is different from your personal license key, which is for the ongoing subscription after your trial ends.

Step 2 — Gym Branding

This is where you give the software your gym's identity. Your gym name and logo will appear on every page of the software and on member receipts.

- Gym Logo (Optional): Click 'Choose File' and select your gym's logo image. Accepted formats are PNG and JPG.
- Gym Name (Required): Type your gym's full name, for example: 'Sunrise Fitness Center' or 'Iron Body Gym'.
- Click 'Continue' when done.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Step 3 — Admin Account Setup

You will now create the administrator login for your gym. This is the master account with full access to everything.

- Username: Choose a username, for example 'admin' or your own name.
- Password: Create a strong password you will remember.
- Confirm Password: Type the same password again to confirm.
- Click 'Create Admin'.

⚠️ **IMPORTANT:** Write your username and password down and keep it in a safe place. If you forget your password, recovery is possible but requires extra steps (see Troubleshooting, Section 9).

Step 4 — First Login

You will now see the login screen. Use the credentials you just created.

- Username: Leave blank for admin login, or type your username.
- Password: Type your password.
- Click 'Login'.

You are now inside FitManager and will see the Dashboard.

3.3 Trial Period Explanation

FitManager comes with a 30-day free trial. During this time, all features are fully available with no restrictions.

Trial Stage	What You See	What You Can Do
Days 1–30 (Active Trial)	A red bar at the top of the screen showing days remaining	Full access to all features
Day 31+ (Trial Expired)	A popup asking you to activate; buttons may be grayed out	View existing data only. Cannot add members, payments, or export.
After Activation	Trial bar disappears completely	Full access to all features, permanently

💡 **TIP:** You can activate at any time during or after the trial. Do not wait until the last day — activating early means no interruption to your gym's operations.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

4. Activation & License Guide

4.1 What Is a Machine ID?

A Machine ID is a unique code automatically generated from your computer's hardware. It is created from a combination of your processor, hard drive, and network card details. This code is different on every computer in the world.

When you purchase a FitManager license, the developer uses your Machine ID to create a special license key that works only on your computer. This prevents the software from being copied and used on other machines without authorization.

4.2 How to Activate Your Software

Activation converts your trial version into a permanently licensed version. Follow these steps:

9. Open FitManager. If the trial has expired, an activation popup will appear automatically. Alternatively, click the 'Activate' button in the red trial bar at the top of the screen.
10. On the activation screen, you will see your Machine ID — a long code unique to your computer.
11. Click the 'Copy' button next to the Machine ID, or click on the code and press Ctrl+A then Ctrl+C to copy it.
12. Contact the developer (Shouvik Deb) and share your Machine ID. The developer will generate a unique license key for your computer.
13. Once you receive your license key, paste it into the 'Enter License Key' field on the activation screen.
14. Click 'Activate'.
15. If the key is correct, you will see a success message. The trial bar will disappear and all features will be unlocked permanently.

💡 **TIP:** When sending your Machine ID to the developer, copy and paste it exactly. Even one wrong character will result in an invalid license key.

4.3 What Happens After Activation

- The red trial countdown bar at the top of the screen disappears.
- All features are permanently unlocked on that computer.
- No more activation reminders or popups.
- The software will continue to work even without any internet connection.

⚠️ **IMPORTANT:** Your license key is tied to your specific computer. If you replace or upgrade your computer, you will need to request a new license key for the new machine. Contact the developer with your new Machine ID.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

4.4 Troubleshooting Activation Issues

Problem	Likely Cause	Solution
'Invalid License Key' error	Machine ID was copied incorrectly or key was generated for a different computer	Copy Machine ID again carefully and request a new key from the developer.
License key not working on new computer	License is tied to the old hardware	Contact developer with the new computer's Machine ID to get a new license key.
Trial bar still showing after activation	Application needs to be restarted	Close FitManager completely and reopen it. The trial bar should be gone.
Cannot copy Machine ID	Text selection issue in the popup	Click directly on the Machine ID code, then press Ctrl+A to select all, then Ctrl+C to copy.
Activation popup not appearing	Trial still active	Click the 'Activate' button visible in the red bar at the top of the screen.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

5. Dashboard Overview

5.1 What Is the Dashboard?

The Dashboard is the first screen you see after logging in. It is your gym's command center, giving you an instant snapshot of your gym's current status — how many members you have, how much revenue has been collected, who owes payments, and recent activity.

5.2 The Four Summary Cards

At the top of the Dashboard, you will see four colored cards. These update automatically every time data changes.

Card	Color	What It Shows
Total Members	Blue	The total number of all members registered in your gym, regardless of their payment status.
Active Members	Green	Members who are fully paid up and in good standing with no outstanding dues.
Pending Members	Yellow/ Orange	Members who have unpaid months. They owe money and need to make a payment.
Blocked Members	Red	Members whose gym access has been blocked, typically due to extended non-payment.

5.3 Revenue Summary

Below the member cards, the Dashboard shows revenue information to help you understand your gym's income at a glance.

- Today's Collection: Total payments received today.
- Monthly Revenue: Total payments received during the current month.
- Recent Activities: A scrollable list of the latest actions taken in the software, such as new members added, payments recorded, and status changes.

5.4 Date Filters

The Dashboard allows you to filter the revenue and activity data by time period. Use the filter options to adjust what time range is displayed:

Filter Button	What It Shows
Today	Only data from the current day
This Week	Data from the last 7 days
This Month	Data from the last 30 days

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Filter Button	What It Shows
All Time	All data since you started using the software
Custom Range	You set a start date and end date using the date pickers, then click Apply

5.5 Sidebar Navigation

On the left side of every page, you will see the main navigation menu. Click any item to go to that section:

Menu Item	Where It Takes You
Dashboard	Returns to the main overview screen
Members	View, search, add, and manage all gym members
Payments	View all payment transactions across all members
Reminders	Send WhatsApp payment reminders to members with dues
Reports	View charts, statistics, and analytics about your gym
Admin	Configure settings, manage staff, backup data (Admin only)
Logout	Signs you out and returns to the login screen

5.6 Gym Branding in Header

At the top of every page, you will see your gym's logo and name. This personalizes the software for your business and ensures that if staff are using the system, they are clearly using your gym's management tool.

5.7 Trial Bar (If Not Yet Activated)

If your software is in the trial period, a red bar appears at the very top of the Dashboard showing how many days remain. When this bar is visible, click the 'Activate' button in that bar to begin the activation process.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

6. Page-by-Page Detailed Guide

6.1 Login Page

Purpose:

The Login Page is the entry point to FitManager. It serves two roles: completing the first-time setup when the software is new, and authenticating users on every subsequent launch.

Buttons and Fields

Element	What It Does
Username field	Enter your username. For the admin account, you may leave this blank and just enter the password.
Password field	Enter your account password.
Login button	Submits your credentials and takes you to the Dashboard if correct.
Need Help? link	Displays basic login instructions on screen.
FORCE RESET SYSTEM button	Emergency option that clears all local data and returns the software to its initial state. Use only if instructed by support. This action is irreversible without a backup.

First-Time Only: Setup Steps on the Login Page

The first time you run FitManager, the Login Page walks you through three setup steps before showing the regular login form:

- Step 1 — Activation: Enter the master key to unlock initial setup.
- Step 2 — Gym Branding: Upload your logo and enter your gym name.
- Step 3 — Admin Setup: Create your admin username and password.

These steps only appear once. After setup is complete, the page shows the standard login form on every future launch.

Example Usage

Scenario: You arrive at the gym in the morning and open FitManager. You see the login screen. You leave the username blank (since you are the admin), type your password, and click Login. Within 2 seconds you are on the Dashboard.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

6.2 Members Page

Purpose:

The Members Page is where you view, search, and manage every person registered at your gym. It shows a table with all members and their current status.

Information Displayed in the Table

Column	What It Shows
Member Name	The full name of the gym member
Phone Number	Their registered mobile number
Plan	The membership plan they are on (e.g., Basic, Standard, Premium)
Status Badge	Colored label showing current status: Active (green), Pending (yellow), Blocked (red), Frozen (blue)
Due Amount	How much money they currently owe, in Indian Rupees
Admission Date	The date they first joined your gym
Actions	Buttons to interact with that member

Action Buttons Per Member

Button	Icon	What It Does
View Profile	👁️	Opens the full member profile page showing complete details and history
Edit	✏️	Opens the edit form to update member information (requires edit permission)
Payment	💳	Opens the payment form to record a new payment for this member
Block / Unblock	🚫 / ✅	Toggles the member's blocked status. Blocked members cannot access the gym.

Search and Filter Options

Filter	Options Available
Search Box	Type a member's name or phone number to find them instantly
Status Filter	Show all members, or filter by: Active, Pending, Blocked, or Frozen
Plan Filter	Show members on all plans, or filter by a specific plan

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Page Buttons

Button	What It Does
➕ Add Member	Opens the Add Member form to register a new gym member

Example Usage

Scenario: A member named Priya comes to pay her dues. You go to the Members page, type 'Priya' in the search box, see her name appear in the list, and click the 💳 button next to her name to open the payment form immediately.

6.3 Add Member Page

Purpose:

This page lets you register a brand new member at your gym. You fill in their personal details, assign them to a membership plan, and save their record.

Required Fields (Must Be Filled)

Field	What to Enter	Example
Full Name *	The member's complete name	Rahul Kumar
Phone Number *	Their 10-digit mobile number	9876543210
Membership Plan *	Select from the dropdown list of plans	Basic / Standard / Premium
Admission Date *	The date they are joining. Defaults to today's date automatically.	Today (auto-filled)

Optional Fields

Field	What to Enter
Father's Name	Parent's or guardian's name
Email Address	Their email for communication
Home Address	Their residential address
Gender	Select Male, Female, or Other
Photo	Click to upload a photo of the member (JPG or PNG)

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Buttons

Button	What It Does
← Cancel	Discards the form and returns to the Members list without saving anything
Save Member	Creates the new member record and adds them to your gym database

What Happens After Saving

- The member is created with a status of 'Pending' — meaning they owe their first month's fee.
- The system starts tracking their billing cycle from their admission date.
- The member now appears in the Members list.

Example Usage

Scenario: A new member named Amit Patel joins your gym today. You go to Members, click Add Member, type his name and phone number, select the Standard plan, leave the date as today, and click Save Member. Amit now appears in your members list, and the system knows he owes his first month's fee.

6.4 Edit Member Page

Purpose:

This page allows you to update the personal details of an existing member — for example, if they change their phone number, move to a new address, or you need to correct a spelling error in their name.

Editable Fields

All the same fields available when adding a member can be edited here: Full Name, Phone Number, Membership Plan, Admission Date, Father's Name, Email, Address, Gender, and Photo.

Buttons

Button	What It Does
← Cancel	Discards your changes and returns to the previous page without saving
Update Member	Saves all the changes you have made to the member's record

© 2024 FitManager by Shouvik Deb | All Rights Reserved

⚠️ **IMPORTANT:** Staff accounts may not have permission to edit member details. If the Edit button is not visible or is grayed out, your account does not have edit permission. Contact your gym admin.

6.5 Member Profile Page

Purpose:

The Member Profile page shows the complete picture for one individual member — their personal details, payment history, current billing status, and all past activity related to that member.

Information Displayed

- Member's name, photo (if uploaded), and phone number
- Current status badge (Active, Pending, Blocked, or Frozen)
- Total amount paid since joining
- Number of months currently due and total due amount
- Membership plan assigned to this member
- Admission date
- Full payment history — a list of every payment ever recorded for this member
- Activity log — a timeline of all actions taken on this member's account

Action Buttons

Button	Icon	What It Does
Edit	✏️	Opens the Edit Member form to update their information
Add Payment	💳	Opens the payment form to record a new payment
Freeze	❄️	Temporarily pauses this member's membership (billing and reminders stop during freeze)
Block	🚫	Blocks this member's access. Their status changes to Blocked.
← Back	Arrow	Returns to the Members list

Example Usage

Scenario: A member calls asking how many months they have paid and how much they still owe. You go to Members, find them in the list, click 👁️ to view their profile, and instantly see their total paid, due months, and payment history. You can answer their question in seconds.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

6.6 Add Payment Page

Purpose:

This page records a payment made by a member. Every time a member pays — whether in cash, by UPI, by card, or by cheque — you record it here.

Fields

Field	What to Enter
Member	Auto-selected if you came from a member's profile. Otherwise, select the member from the dropdown.
Amount (₹)	The total amount of money the member has paid, in Indian Rupees
Months Paid	How many months of membership this payment covers
Payment Date	The date the payment was received. Defaults to today.
Payment Method	Select how they paid: Cash, UPI, Card, Cheque, or Bank Transfer
Notes	Optional. Write any extra information, such as 'Advance for January 2025'.

Buttons

Button	What It Does
← Cancel	Goes back without recording the payment
Save Payment	Records the payment and updates the member's billing status

What Happens After Saving

- The payment is added to the member's payment history.
- The member's paid months count increases.
- Their outstanding due amount decreases.
- If all dues are cleared, their status automatically changes from 'Pending' to 'Active'.

Example Usage

Scenario: Sneha Gupta comes to the front desk and pays ₹4,000 for 2 months on the Premium plan. You open her record, click Add Payment, enter 4000 as the amount, 2 as the months, select Cash as the method, and click Save Payment. Her balance clears and her status turns green (Active).

© 2024 FitManager by Shouvik Deb | All Rights Reserved

6.7 Payments Page (All Transactions)

Purpose:

The Payments page shows a complete record of every payment transaction ever recorded in your gym, across all members. This is useful for reviewing daily income, searching for specific transactions, or checking payment history.

Information in the Table

Column	What It Shows
Payment Date	When the payment was recorded
Member Name	Who made the payment
Amount	How much was paid (in ₹)
Months Paid	How many months this payment covered
Payment Method	Cash, UPI, Card, etc.
Notes	Any notes added at the time of recording

Filters Available

- Date range selector: Set a start and end date to view payments from a specific period.
- Search by member name: Type a name to find all payments from a specific member.

6.8 Reminders Page

Purpose:

The Reminders page shows all members who have pending or blocked status — meaning they owe money. This is where you send WhatsApp payment reminders to encourage members to pay their dues.

Message Template

At the top of the Reminders page, you will see the reminder message template. This is the text that gets sent to members. You can customize this message using the following placeholders:

Placeholder	What It Inserts Into the Message
{NAME}	The member's full name

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Placeholder	What It Inserts Into the Message
{DUE_MONTHS}	How many months they currently owe
{AMOUNT}	The total amount due in Rupees

Per-Member Action Buttons

Button	Icon	What It Does
WhatsApp	📤	Opens WhatsApp Web or the WhatsApp app with a pre-written message ready to send to this member
Copy Message	📋	Copies the reminder message to your clipboard so you can paste and send it manually
Mute	🔇	Hides this member from the reminders list. Useful for members who have a special arrangement.
Reminder History	📜	Shows a log of all past reminders sent to this member

Page-Level Buttons

Button	What It Does
📤 Bulk WhatsApp	Sends WhatsApp reminders to all members currently visible in the list in one action
👁️ Show / Hide Muted	Toggles the visibility of members you have muted, so you can manage or unmute them

Example Usage

Scenario: It is the 5th of the month. You check the Reminders page and see 12 members with pending dues. You click 'Bulk WhatsApp' and WhatsApp opens for each member automatically, with a message like: 'Hi Rahul, your gym fee for 2 months (₹3,000) is due. Please pay soon. Thank you!' You confirm and send each one.

6.9 Reports Page

Purpose:

The Reports page provides charts, graphs, and statistics to help you understand your gym's financial performance and membership trends over time.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Statistics Displayed

- Total member count, broken down by status (Active, Pending, Blocked, Frozen)
- Total revenue collected in the selected date range
- Payment trends showing income over time
- Member growth showing how your gym has grown over time

Date Filters

Filter	What It Shows
Today	Statistics for the current day only
Week	Statistics for the last 7 days
Month	Statistics for the last 30 days
Year	Statistics for the last 365 days
Custom Range	You enter a start date and end date, then click Apply to see that specific period

Export Feature

Click the '📊 Export All' button to open a print-friendly version of the reports. Use Ctrl+P on your keyboard to print it or save it as a PDF file.

6.10 Admin Page

Purpose:

The Admin page is the control center for configuring how FitManager behaves. Here you can set billing rules, manage membership plans, configure automatic blocking, set up staff accounts, and manage data backups.

> ⚠️ **IMPORTANT:** The Admin page is only accessible to accounts with the Admin role. Staff accounts with limited permissions cannot access this page.

Section 1 — Membership Plans

This section shows all the membership plans available at your gym. Each plan has a name and a monthly price.

Button	What It Does
➕ Add Plan	Creates a new membership plan with a name and price you specify
✏️ Edit	Changes the name or price of an existing plan

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Button	What It Does
🗑️ Delete	Removes a plan. Note: plans assigned to current members cannot be deleted.

Default plans included with the software: Basic (₹1,500/month), Standard (₹2,500/month), and Premium (₹4,000/month). You can change these to match your gym's actual pricing.

Section 2 — Billing Rules

Setting	What It Controls
Max Months Payable	The maximum number of months a member can pay in advance in one transaction
Allow Partial Payment	If enabled, members can pay less than a full month's fee
Allow Advance Payment	If enabled, members can pay ahead of their current due date
Late Fee Amount (₹)	An extra charge added to overdue payments
Late Fee After Days	How many days after a due date before a late fee is applied
Rounding Rule	How fractional amounts are rounded: none, round to nearest, floor (round down), or ceiling (round up)

Section 3 — Auto Block & Auto Expiry Rules

Setting	What It Controls
Enable Auto Block	If turned on, the system will automatically block members who have not paid for too long
Block After Unpaid Months	Number of unpaid months before a member is automatically blocked
Grace Period Days	Extra days allowed after the unpaid threshold before blocking happens
Auto Unblock After Payment	If turned on, a member is automatically unblocked when they record a payment

Section 4 — Freeze Rules

Setting	What It Controls
Enable Freeze	Turns on the ability to pause memberships temporarily
Max Freeze Months	The longest a membership can be frozen
Min Freeze Days	The shortest freeze duration allowed
Allow Multiple Freezes	Whether a member can freeze their account more than once
Require Reason	Forces staff to enter a reason when freezing a membership
Auto Resume	Automatically ends the freeze after the set duration

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Setting	What It Controls
Freeze Stops Reminders	While frozen, the member will not receive payment reminders
Freeze Stops Auto-Block	While frozen, the member will not be automatically blocked

Section 5 — Reminder & Notification Rules

Setting	What It Controls
Enable Reminders	Turns the reminder system on or off globally
Reminder Limit Per Month	Maximum number of reminders that can be sent to one member per month
Reminder Cooldown Days	Minimum number of days between reminders for the same member
Remind Before Days	How many days before a due date to start sending reminders
Remind After Days	How many days after a due date to continue sending reminders
Mute Member Option	Allows individual members to be muted from the reminder list

Section 6 — Security & Permissions

Permission	What It Controls
Edit Member	Whether staff can edit member information
Delete Member	Whether staff can delete members
Edit Payment	Whether staff can modify existing payment records
Delete Payment	Whether staff can delete payment records
Block / Unblock	Whether staff can manually block or unblock members
Freeze / Unfreeze	Whether staff can pause member memberships
Change Plan	Whether staff can change a member's membership plan
View Reports	Whether staff can access the Reports page
Export Data	Whether staff can export or backup data

Section 7 — Staff Management

Add, view, and remove staff accounts that allow other people to log in and use the software with controlled permissions.

Button	What It Does
➕ Add Staff	Creates a new staff login account
🗑️ Delete	Removes a staff account. The staff member can no longer log in.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

When creating a staff account, you enter their Name, a Username they will use to log in, a Password, and assign them a Role (Admin or Staff).

Section 8 — Backup & Reset

Button	What It Does
💾 Backup Data	Downloads a complete copy of all your gym data as a .json file. Keep this file safe.
📥 Import Data	Loads data from a previously created backup .json file, restoring your gym records.
🔄 Reset System	DANGER: Permanently deletes ALL data and resets the software to factory default. Only use this if you want to start completely fresh. This action CANNOT be undone.

Section 9 — Demo Tools

Button	What It Does
🎲 Add Demo Data	Adds sample members and payments for practice and testing purposes. Useful when first learning the software.

Save Settings

Button	What It Does
💾 Save All Settings	Saves all the configuration changes you have made on the Admin page. Always click this before leaving.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

7. Daily Workflow Guide

7.1 Morning Routine — Starting the Day

16. Double-click the FitManager icon on your desktop.
17. Wait for the loading screen to complete (5 to 10 seconds).
18. Enter your password on the login screen and click Login.
19. On the Dashboard, check the four summary cards:
    - Is the Active Members number what you expected?
    - Are there any Pending or Blocked members who should be followed up today?
20. Note any members who need to pay soon.

7.2 Adding a New Member

When a new person joins your gym, register them immediately so their billing starts from the correct date.

21. Click 'Members' in the left sidebar.
22. Click the green '➕ Add Member' button.
23. Fill in the member's Full Name and Phone Number (both required).
24. Select their Membership Plan from the dropdown.
25. The Admission Date auto-fills with today. Change it if they are backdating their membership.
26. Add optional details (photo, email, address) if available.
27. Click 'Save Member'.
28. The member now appears in your list with Pending status. Ask them to pay their first month's fee.

7.3 Recording a Payment

Every time a member pays — whether at the counter, by phone, or in advance — record it in FitManager immediately.

Method 1: Quick Payment from Members List

29. Go to the Members page.
30. Find the member in the list by searching their name or phone.
31. Click the 💳 button next to their name.
32. Enter the payment details (Amount, Months Paid, Method).
33. Click 'Save Payment'.

Method 2: From Member Profile

34. Go to the Members page and click 👁 to view the member's full profile.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

35. Click '💳 Add Payment' on their profile page.
36. Enter the payment details and click 'Save Payment'.

💡 **TIP:** Use Method 2 when you want to review a member's full payment history before recording a new payment, for example to verify how many months they have already paid.

7.4 Checking Who Owes Money

37. Click 'Members' in the sidebar.
38. Find the Status filter dropdown at the top of the members table.
39. Select 'Pending' to see only members who owe money.
40. The 'Due Amount' column shows exactly how much each member owes.

7.5 Sending Payment Reminders

41. Click 'Reminders' in the sidebar.
42. Review the list — these are all members with pending dues.
43. For one member: Click the 📤 WhatsApp button next to their name. WhatsApp opens with the message pre-written.
44. For all members at once: Click '📤 Bulk WhatsApp' at the top.
45. Confirm and send each message in WhatsApp.

💡 **TIP:** The reminder message automatically includes the member's name, the number of months due, and the total amount. You do not need to type anything — just click Send in WhatsApp.

7.6 Blocking and Unblocking Members

To Block a Member

46. Go to the Members page.
47. Find the member you want to block.
48. Click the 🚫 (Block) button next to their name.
49. Confirm the action when prompted.
50. The member's status changes to 'Blocked' (shown in red).

To Unblock a Member

51. Filter the Members list by 'Blocked' status to find blocked members.
52. Click the ✅ (Unblock) button next to the member.
53. The member is unblocked immediately.

💡 **TIP:** If Auto Unblock is enabled in Admin settings, members are unblocked automatically when they record a payment. You do not need to manually unblock them in that case.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

7.7 Freezing a Member's Membership

Freezing temporarily pauses a membership. No billing accumulates and no reminders are sent during a freeze. This is useful when a member is traveling, injured, or temporarily inactive.

54. Go to the member's profile by clicking 👁 next to their name.
55. Click the ❄️ Freeze button.
56. Enter the freeze duration and a reason (if required by your settings).
57. Confirm. The member's status changes to 'Frozen' (shown in blue).
58. The membership automatically resumes after the freeze period if Auto Resume is enabled.

7.8 End-of-Day Routine

59. Go to the Dashboard and review today's collection to confirm all payments were recorded correctly.
60. Go to Members and filter by Pending to make a note of who should be followed up tomorrow.
61. Go to Admin and click '💾 Backup Data' to download today's backup file.
62. Save the backup file to a USB drive, Google Drive, or another safe location.
63. Click 'Logout' in the sidebar.
64. Close the FitManager window.

7.9 Weekly Checklist

- Check the Reports page for weekly revenue and member growth trends
- Follow up with members who have been Pending for more than 2 weeks
- Verify that the weekly backup is saved to an external location
- Review any Blocked members to see if they have paid or should be removed

© 2024 FitManager by Shouvik Deb | All Rights Reserved

8. Admin & Settings Guide

8.1 Configuring Membership Plans

To set up or change the plans available at your gym:

65. Go to Admin in the sidebar.
66. Find the 'Membership Plans' section at the top.
67. Click '➕ Add Plan' to create a new plan.
68. Enter the plan name (e.g., 'Gold') and the monthly price (e.g., 3000).
69. Click Save.
70. To change an existing plan's price, click the ✏️ Edit button next to it.
71. Click '💾 Save All Settings' before leaving the Admin page.

8.2 Setting Up Auto-Block Rules

Auto-block automatically restricts access for members who have not paid for too long, saving you from manually blocking each one.

72. Go to Admin and find the 'Auto Block & Auto Expiry Rules' section.
73. Turn on 'Enable Auto Block'.
74. Set 'Block After Unpaid Months' — for example, 2 means the member will be blocked after 2 unpaid months.
75. Set 'Grace Period Days' — for example, 5 means the system waits 5 extra days after the threshold before blocking.
76. Turn on 'Auto Unblock After Payment' if you want members to be automatically unblocked when they pay.
77. Click '💾 Save All Settings'.

💡 **TIP:** Example: If you set Block After 2 Months with a 3-day grace period, and a member has not paid for January and February, they will be automatically blocked on March 4th.

8.3 Managing Staff Accounts

If you have employees who use FitManager at the front desk, create staff accounts so they can log in with their own credentials, separate from your admin account.

78. Go to Admin and find the 'Staff Management' section.
79. Click '➕ Add Staff'.
80. Enter the staff member's name, a username they will use to log in, and a password.
81. Assign their role: Staff (limited access) or Admin (full access).
82. Click Save.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Controlling What Staff Can Do

Under 'Security & Permissions' in Admin, you can toggle on or off specific abilities for staff accounts. For example, you can prevent staff from deleting members or viewing reports.

> ⚠️ **IMPORTANT:** Staff accounts assigned the Admin role have the same full access as the owner. Only assign Admin role to people you fully trust.

8.4 Backup and Data Safety

Creating a Manual Backup

83. Go to Admin.
84. Scroll to the 'Backup & Reset' section.
85. Click '💾 Backup Data'.
86. A .json file is downloaded to your computer.
87. Move this file to a safe location: a USB drive, Google Drive, or OneDrive.

Restoring from Backup

88. Go to Admin.
89. Click '📥 Import Data'.
90. Browse to your saved .json backup file and select it.
91. Confirm the import. All data from the backup will be restored.

Recommended Backup Frequency

Gym Size	Recommended Backup Frequency
Small (under 50 members)	Once per week
Medium (50 to 200 members)	Every 2 to 3 days
Large (200+ members)	Every day

> ⚠️ **IMPORTANT:** If your computer's hard drive fails and you have no backup, all your member data, payment history, and records will be permanently lost. Always keep at least one backup copy in a separate location such as a USB drive or cloud storage.

8.5 Understanding the Trial and License Behavior

During the 30-Day Trial

- A red countdown bar appears at the top of the screen.
- All features are fully accessible — nothing is restricted during the trial.
- An 'Activate' button appears in the trial bar for easy access.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

After Trial Expires (Day 31 Onwards)

- The software enters Read-Only Mode automatically.
- You can view all existing member data and payment records.
- You cannot add new members, record payments, edit records, or export data.
- An activation popup appears each time you try to perform a restricted action.

After Activation

- The trial bar disappears completely.
- All features are permanently unlocked on that specific computer.
- No subscription renewals or repeat payments are needed.

8.6 Activity Logging

FitManager automatically records a log of important actions taken in the software. The following events are logged:

- Member additions and deletions
- Payment recordings and edits
- Status changes (blocked, unblocked, frozen)
- Login and logout events
- Settings changes in Admin

Activity logs can be found at: Documents\FitManager\Logs\app.log. You can open this file with Notepad to review past activity.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

9. Troubleshooting

9.1 The Application Will Not Open

Symptom	Cause	Fix
App opens briefly and closes	Background service failed to start	Wait 30 seconds, then try opening again. If it persists, restart your computer.
White or blank screen appears	Backend server did not start in time	Wait 15 seconds. If still blank, close FitManager and reopen it.
Error message: 'Cannot connect to server'	Internal server process crashed	Close the app completely, wait 10 seconds, and reopen it.
'Background Service Stopped' message	Critical internal error	Check the log file at Documents\FitManager\Logs\app.log for details. Restart the app.

9.2 Cannot Log In

Symptom	Fix
'Wrong password' error	Check that Caps Lock is off. Passwords are case-sensitive. Try typing slowly and carefully.
Completely forgot admin password	Type MASTER-GYM-2026 as the password. This emergency key works as a backup login. After logging in, immediately go to Admin and set a new password.
Staff member cannot log in	Verify their username and password in Admin > Staff Management. Reset their password if needed.
Login button does nothing	One of the fields may be empty. Make sure the password field is filled.

9.3 Cannot Add Members or Record Payments

Symptom	Fix
Buttons are grayed out	Your trial period has expired. You must activate the software with a license key.
'You don't have permission' message	Your staff account does not have permission for that action. Ask your gym admin to adjust permissions in Admin > Security.
'All fields are required' message	One or more required fields are empty. Check for fields marked with an asterisk (*).
Amount field not accepting numbers	Click directly on the amount field and try again. Make sure you are typing numbers, not letters.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

9.4 Activation Problems

Symptom	Fix
'Invalid License Key' error	Your Machine ID may have been copied incorrectly. Open the activation popup, copy your Machine ID again carefully (use Ctrl+A then Ctrl+C), and request a new key.
License key worked on old computer but not new computer	Licenses are hardware-locked. You need a new license key for the new computer. Contact the developer with the new Machine ID.
Trial bar still showing after activation	Close FitManager completely and reopen it. The activation takes effect on the next launch.

9.5 Data Problems

Symptom	Fix
Members have disappeared from the list	Clear any active search text and reset the Status filter to 'All'. The members may be filtered out.
Payment was recorded but does not show in history	Refresh the page by navigating away and back to the Payments page. If still missing, check if the trial expired during entry.
Data from yesterday is gone	This can indicate a database corruption. Import your most recent backup file from Admin > Import Data.
App shows data from a different gym	The wrong database file may have been imported. Use Admin > Import Data to load the correct backup.

9.6 How to View Log Files

If you need to report a problem to the developer or investigate an issue, the log file contains detailed records:

92. Press the Windows key + E to open File Explorer.
93. Navigate to: Documents\FitManager\Logs\
94. Right-click the file named app.log.
95. Click 'Open with' and select Notepad.
96. Scroll to the bottom to see the most recent entries.
97. Look for lines that say ERROR or CRITICAL to find the cause of the problem.

10. Frequently Asked Questions

10.1 General Questions

Q: Does FitManager require an internet connection?

A: No. Once installed, FitManager works 100% offline. Internet is only needed for the initial download of the setup file. All daily operations — adding members, recording payments, sending reminders, viewing reports — work without any internet connection.

Q: Where is my gym's data stored?

A: All data is stored only on your computer at C:\Users\[YourName]\AppData\Roaming\GymForce\data\. Your data is never uploaded to any server or cloud service. It stays completely private on your own machine.

Q: Can I use FitManager on multiple computers?

A: Each computer needs its own separate license. The license key is tied to the hardware of one specific computer. If you want to use FitManager on a second computer (e.g., a laptop at the gym and a desktop at home), you will need a separate license key for each machine.

Q: How do I move my data to a new computer?

A: First, create a backup on your old computer: Admin > Backup Data. Install FitManager on the new computer, activate it with a new license key, then go to Admin > Import Data and load your backup file. All your member records and payment history will be restored.

10.2 Members and Plans

Q: What does 'Pending' status mean?

A: Pending means the member has one or more unpaid months. They owe money and should make a payment. You can see the exact amount owed in the 'Due Amount' column on the Members page.

Q: What does 'Blocked' status mean?

A: Blocked means the member's gym access has been restricted, usually because they have not paid for an extended period. You can manually block a member using the 🚫 button, or the system can block them automatically based on your Admin settings.

Q: What does 'Frozen' status mean?

A: Frozen means the membership is temporarily paused. No billing accumulates and no reminders are sent while a membership is frozen. This is used when a member cannot attend the gym for a period (due to travel, injury, etc.).

Q: How does billing work?

© 2024 FitManager by Shouvik Deb | All Rights Reserved

A: Billing is calculated automatically based on each member's admission date. If a member joins on the 15th, their next payment is due on the 15th of the following month. The system tracks how many months have passed since the last payment and shows the outstanding due amount accordingly.

Q: Can a member pay for multiple months in advance?

A: Yes. When recording a payment, enter the number of months being paid in the 'Months Paid' field. The system will mark those months as paid and update their status accordingly.

Q: How do I change a member's membership plan?

A: Go to the member's profile by clicking 👁️ next to their name. Click the Edit (✏️) button. Select the new plan from the Plan dropdown and click Update Member. Note that staff may need permission to change plans — check Admin > Security settings.

10.3 Payments and Billing

Q: What currency does FitManager use?

A: FitManager uses Indian Rupees (₹) by default.

Q: Can I edit or delete an old payment record?

A: Editing and deleting payment records requires specific permissions. If your account has the 'Edit Payment' or 'Delete Payment' permission enabled, you can modify records. If you do not have permission, contact your gym admin.

Q: What if I record a payment with the wrong amount?

A: If you have edit permission, find the payment in the Payments page or in the member's profile under Payment History. Click Edit to correct it. If you do not have edit permission, ask the gym admin to correct it.

10.4 Staff and Security

Q: Can I add other staff members to the system?

A: Yes. Go to Admin > Staff Management and click ➕ Add Staff. Create a username and password for each staff member. You control exactly what they can and cannot do through the permissions settings.

Q: What is the difference between Admin and Staff roles?

A: An Admin account has full access to every feature including settings, backups, and reset options. A Staff account has limited access based on the permissions you configure in Admin > Security & Permissions. Assign the Admin role only to trusted personnel.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

10.5 Backups and Data Safety

Q: How often should I create a backup?

A: For a small gym (under 50 members), once a week is sufficient. For a medium gym (50 to 200 members), every 2 to 3 days is recommended. For a large gym (200+ members), back up every day. Store backups outside your computer, on a USB drive or cloud storage.

Q: How do I restore from a backup?

A: Go to Admin > Backup & Reset > Import Data. Select your .json backup file. All your data will be restored from that backup.

10.6 Settings and Customization

Q: How do I change my gym's membership plan prices?

A: Go to Admin > Membership Plans. Click ✏️ Edit next to the plan you want to change. Update the price and save. Remember to click 'Save All Settings' before leaving the Admin page.

Q: Can I change my gym name or logo?

A: Currently, changing the gym name and logo after the initial setup requires resetting the system and going through the first-time setup again. Before doing this, create a backup of all your data so you can restore it after the reset.

Q: How do I customize the WhatsApp reminder message?

A: Go to Reminders. At the top of the page, you will see the message template. Edit the text directly. Use {NAME}, {DUE_MONTHS}, and {AMOUNT} as placeholders. The system fills in the correct values for each member when sending.

11. Beginner Quick Start Tutorial

Welcome! This section is written as a simple story to guide you through your very first day with FitManager. Follow each step in order and you will be fully operational in under one hour.

Tutorial 1 — Installing and Opening FitManager

Imagine you have just received your setup file and want to get started.

98. Find the file named Setup.exe on your computer. It is probably in your Downloads folder.
99. Double-click Setup.exe. If Windows asks 'Do you want to allow this app to make changes?', click Yes.
100. On the installation screen, keep clicking Next and then Install. Wait 1 to 2 minutes.
101. When it says 'Installation Complete', click Finish.
102. Look on your desktop for the FitManager icon. Double-click it.
103. FitManager opens. You see an 'Activate FitManager' screen. Type the master key you received with the software and click Activate.
104. You are taken to the Gym Branding screen. Type your gym's name, for example 'Power Fitness Club'. Optionally, upload your gym logo. Click Continue.
105. You see the Admin Setup screen. Type a username (for example, 'admin') and a password you will remember. Type the password again to confirm. Click Create Admin.
106. The Login screen appears. Leave the username blank, type your password, and click Login.

⚠️ **IMPORTANT:** You are now inside FitManager! Write your username and password in a notebook and keep it safe.

Tutorial 2 — Adding Your First Three Members

Let us add some members to practice. You can delete these later or use real member details right away.

107. In the left sidebar, click Members.
108. Click the green '➕ Add Member' button at the top right.
109. Fill in the first member's details: Name = 'Rahul Kumar', Phone = 9876543210, Plan = Basic. Leave the date as today.
110. Click Save Member. You see a success message. Rahul is now in your list with Pending status.
111. Click '➕ Add Member' again.
112. Add the second member: Name = 'Priya Sharma', Phone = 9123456789, Plan = Standard. Save.
113. Add the third member: Name = 'Amit Patel', Phone = 9234567890, Plan = Premium. Save.

You now have 3 members in your gym. Notice they all show 'Pending' status — because they have not paid yet.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

Tutorial 3 — Recording a Payment

Rahul comes to the desk and pays ₹1,500 for 1 month in cash.

114. On the Members page, find Rahul Kumar in the list.
115. Click the 💳 button next to his name.
116. The payment form opens. The member is already set to Rahul.
117. In the Amount field, type 1500.
118. In the Months Paid field, type 1.
119. Leave the date as today.
120. In Payment Method, select Cash.
121. Click Save Payment.

Rahul's status changes from yellow (Pending) to green (Active). His payment is recorded. He is fully paid up.

Tutorial 4 — Sending a Reminder

Priya and Amit still have not paid. Let us send them a WhatsApp reminder.

122. In the sidebar, click Reminders.
123. You see Priya and Amit listed — both have pending dues.
124. Find Priya's row. Click the 📤 WhatsApp button.
125. WhatsApp opens on your computer or phone with a message already written: something like 'Hi Priya, your gym fee for 1 month (₹2,500) is due. Please pay soon. Thank you!'
126. Click Send in WhatsApp.
127. Go back to FitManager and do the same for Amit.

Both members have now received a payment reminder via WhatsApp. You did not have to type anything — FitManager wrote the message for you.

Tutorial 5 — Viewing Your Reports

At the end of the week, you want to see how much money you collected.

128. Click Reports in the sidebar.
129. Click the 'Month' quick filter button.
130. You can see a chart showing revenue collected this month, total members, and status breakdown.
131. Click 'Export All' if you want to print or save this report as a PDF.

Tutorial 6 — Creating Your First Backup

Before closing FitManager for the night, always back up your data.

132. Click Admin in the sidebar.

© 2024 FitManager by Shouvik Deb | All Rights Reserved

133. Scroll down to the 'Backup & Reset' section.
134. Click '💾 Backup Data'.
135. A file download starts. The file is named something like gymforce_backup_2024-01-15.json.
136. Save this file to a USB drive or your Google Drive.
137. Click Logout in the sidebar and close FitManager.

Your data is safe. You have successfully completed your first day with FitManager.

Daily Checklist — Print and Keep at Your Desk

Time	Task
Morning — Opening	Open FitManager, log in, check Dashboard summary cards
During Day	Add new members immediately when they join
During Day	Record every payment as soon as it is received
During Day	Update member information if they report a change
Evening — Closing	Review pending members for next-day follow-up
Evening — Closing	Send WhatsApp reminders from the Reminders page if needed
Evening — Closing	Create a backup in Admin > Backup Data
Evening — Closing	Click Logout and close the application
Weekly	Check Reports for revenue and member growth trends
Weekly	Follow up personally with long-term pending members
Weekly	Verify backup is saved on USB drive or cloud storage

© 2024 FitManager by Shouvik Deb | All Rights Reserved
